ML Model	A machine learning model is a file that has been trained to recognize certain types of patterns. You train a model over a set of data, providing it an algorithm that it can use to reason over and learn from those data.
Classifier	Classifier is an algorithm that automatically orders or categorizes data into one or more of a set of "classes".
Fertilizer appropriate	They are the percentages that the application will give, which is a percentage of each fertilizer so that the farmer puts these percentages to get the best fertilizer without an increase or decrease in the amount of fertilizer.
